

REMARKS

Claims 1-5 are currently pending in this application. Applicant would first like to thank the Examiner for deeming claims 1, 2, and 5 allowable. Claims 1, 2, and 5 have been amended to correct clerical errors and have not been amended in response to a rejection on the merits. Claims 3 and 4 have been amended to more clearly recite the claimed invention. No new matter has been introduced by the amendments. Applicants also submit amended formal drawings of Figures 1 and 2 to overcome the objections raised by the Draftsperson.

In view of the amendment and the following remarks, Applicants respectfully request reconsideration and reexamination of this application and timely allowance of the pending claims.

The Rejection Under 35 U.S.C. § 112, Second Paragraph, Has Been Overcome

Claims 3 and 4 were rejected under 35 U.S.C. § 112, second paragraph, as allegedly being indefinite for failing to particularly point out and distinctly claim the subject matter that the Applicant regard as the invention.

Applicant respectfully submits that claims 3 and 4, as amended, overcome the rejection under 35 U.S.C. § 112, second paragraph, and are in condition for allowance. Applicant requests that the rejection be reconsidered and withdrawn.

The Statement for Reasons for Allowable Subject Matter-

Applicant appreciates the Examiner's allowance of claims 1, 2, and 5. Applicant notes that on page 3 of the Office Action, the Examiner refers to references made of record as "Admitted Prior Art." Applicant would like to point out for the record that the references cited by the Examiner are not considered prior art. Applicant further has made no admission that any references including those disclosed to the patent office by the Applicant as well as those cited by the Examiner are prior art.

Conclusion.

In view of the foregoing amendment and response, the Applicants respectfully request withdrawal of the outstanding rejections and early notice of allowance to that effect.

No fees are believed due for this submission.
